# Release Note - Page Segmentation for Tooltips

Last Modified on 01.06.2023

21 March 2023

What is new

Now you can apply page segmentation to Tooltips to provide context-based help for your users.

For more information on how page segmentation works, please check the following wiki section.

Where to find it

In Editor: Create > New Tooltip or click first on Tooltips icon > Create and select Segmentation
